ment. Without health, all the talent, all the genius, and all the ambition in the world are worthless. A boy should be taught that success in any walk of life, that happiness, and life itself, are dependent upon his care of his health.

When a man feels that he is losing his health and vigor, when his cheeks no longer glow, his step is no longer clastic and the sparkle of health is no longer in his eyes, he should work less, rest more and resort to the right remedy to restore his bodily vigor. Dr. Pierce's Goleen Medical Discovery is a natural medicine—a scientific medicine. It does no violence to nature. It works with and not against nature. It promotes the natural processes of secretion and excretion. It imparts vitality and power to the whole system. It gives plumpness and color to the cheeks, sparkle to the eyes, streadiness to the nerves, strength to the muscles and the animation of health to the whole body. It makes the appetite keen and hearty. It is the great blood-maker, flesh-builder and nerve-tonic and restorative. Medicine dealers sell it and have absolutely nothing else "just as good."

"I was afflicted with pimples and boils, and running sores on face and neck," writes Robert 8. Wert, Esq. of No. 613 Galloway Ave., Columbus, Ohio. "I took Dr Pierce's Golden Medical Discovery and 'Pleasant Pellets,' and was cured,"

Constipation is the commonest beginning and first cause of many serious diseases and it should always be treated with Dr. Pierce's Pleasant Pellets used in connection with the "Discovery." These are the most perfect natural laxatives and permanently cute.

LARGE GOLD IMPORTATIONS.

The gold syndicate just now is sending large amounts of gold to the United States. A few years ago when the syn-dead before the arrests were made. dicate wanted Government bonds inof its own, it is permitting a large in- floated and docked at Cavite. flux of gold from foreign countries.

The Outober statement of imports and exports of gold just issued by the Tgeasury Bureau of Statistics, shows that the total imports of the ten months she called for the same she found that ending Outober 31, 1898, are \$143,558, the letter had been tampered with, as 095, which is more than 50 per cent in it contained simply two strips of paper. excess of the amount imported in the The Government has put detectives on corresponding period of any preceding | the case. year. The exports in that time have been only \$14,061,849, which is less than in athe corresponding months of any preceding year for more than a decade. This gives the enormous balance of \$129,596,246, to excess of exportations.

In only one other year in the decade have the ten months ending with October shown an excess of imports of gold over the exports, that occasion being in 1896, when the excess of imports was \$37,035,871. In all other years, from 1888 to 1898, the October returns showed for the ten months of the calendar year an excess of exports of gold over the imports of that article, that of 1895 heing \$43,247,360, and 1894, \$72,-808,322.

This unprecedented flow of gold into the United States, is accounted for in |000. part at least by the enormous balance of trade in this country's favor, which the ten months of the year have afforded. In those ten months the total negro was finally landed in jail which imports of merchandise amounted to only \$527.757.554, while the total exports were \$987,984,356, a favorable balance of trade of \$460,206 802. The total exports of merchandise for the month of October, 1898, amounted to \$118,686,-232, a sum larger than in any preceding October in the history of the country, the figures for October, 1897, being believed the peace negotiations are \$111,744,517 and those for October, 1896, **81**13,516,586.

The enormous importation of gold in excess of the exportation is plainly perceptible in the increased circulation shown by the figures of the Treasury Department. The latest statement of the gold in the Treasury shows a balance of (\$242,805,604, while the gold in circulation on November 1st was \$649,-846,727, being \$110,000,000 greater than on November 1st of last year and nearly \$200,000,000 more than in July 1, 1896, in which month it touched the lowest point in several years.

GOLDBUGS AND THE SOL-DIERS.

Nevada goldbugs are shedding crocodile tears over the probability of the Cavalry troop that has sailed for Manila being disfranchised. They ignore all sizes, which I am selling at prices the fact that the Act of the Legislature that defy competition. I have a large of 1866, which provided for volunteers assortment of fine all wool blankets, voting in the field, was repealed by a buggy robes, saddle blankets and Republican Legislature in 1873, with- quilts. I have always on hand a comout any apparent cause. The main proof of their hypocrisy is found, however, in the fact that they are endeavoring to capture the seat of Senator employment office in connection with Lord of Storey county, who is now in the army of the United States. Major Lord was elected in 1896 for four years. Only one-half of his term has expired, yet while he is in the service of his country they are using every known means to deprive him of his seat in the Senate. Of course their efforts in this direction will be futile. The Senate, under the Constitution, is the sole judge of the election and qualification of its own members and as a majority of that body are Silver men they will see that Senator Lord will not be deprived of his seat to make room for a Comstock Goldbug.

GENERAL GREELET'S CRITICISMS.

General A. W. Greeley, Chief Signal low's Soothing Syrup." Officer, at the annual dinner of the Chit Chat Club, which is composed of army officers, severely criticised the conduct of the war generally and particularly the Santiago campaign. He seems to know too much and the Administration does not want his kind placed on the witness stand.

COLD COMFORT FOR GOLDBUGS.

The average Republican vote in Nevada at the recent election was about cian only mends—should not she who 3,000 or 600 less than in 1894. There is not much comfort for goldbugs in these figures, yet the divisions in the silver knowledge or the ignorance of the servforces gave them a good chance to elect State officers.

Now the silver forces see the folly of factional fights, and henceforth, if wise her own instructed head to teach Norah counsel prevails, they will unite and present a solid front to the common enemy. Already prominent Silver men, Demograte and Populists declare for complete and thorough fusion under and since few reach adult life without the leadership of W. J. Bryan, and the being called to that position in the banner of free coinage in 1900, when household of husband, father or broth-

A HARD RAILROAD TO BEAT.

One Man In Double Distilled Ill Luck Found It So.

The Southern Pacific is about the worst road in the wide, wide world to fool in the matter of transportation. The Southern Pacific has such a plain monopoly of California business that it is not necessary for it to look for favors, so it closes down very tight. Even the tickets which the scalpers succeed in getting are so hedged about with precantions that it is like taking a civil service examination to beat one of them.

The favorite is a long slip which is flesigned to be punched to fit the description of the purchaser, so that by no means can it be used by another than the rightful owner. When one of these tickets appears in a scalper's stock, men of Kentucky wired his wife that it looks like a porous plaster, being punctured for the color of the eyes, the hair, stature, weight, complexion and other details of the physical make up.

Once Jim Crawford of Laramie found himself stuck in San Francisco with \$4 and a fearful hunger for home. But \$4 was as nothing to the fare back over the desert. While he was worrying his soul with regrets he came upon a neatly folded slip of paper which had been lost, doubtless by some hurried tourist. It was one of those pieces of organette mu-

sic representing a ride back to Ogden.

Jim read it over, printed matter, punches and all, and rushed for a drug store. He bought dyes for his hair, a stain for his complexion, got a pair of blue goggles and ran a concealing bandage over his chin. A barber took off his mustache, and for a dollar a cheap eculist made his eyes blue, so that the goggles were re-enforced with corroboration. It took all his money but 40 cents. Then he climbed aboard the

He had reached Port Costa when the conductor came around and gave one hurried look at the ticket.

"This thing expired a month ago," he said tersely.

THE GBAND JURY. Final Report Filed Including Reports

of Various Committees. The Grand Jury concluded their labors yesterday and flied their report. For sometime the various committees of the Grand Jury have been at work looking into county affairs in detail in order to report on the stewardship of the officials for the past two years that the terms of the officers-elect might be commenced with clear accounts.

The following is the report: To Hon. A. E. Cheney, Judge of the Second Judicial District of the State of

Nevada-Sin: The Grand Jury herewith presents their final report. The Jury have examined the several matters of a criminal nature presented to them and have found three true

bills. Two for assault with intent to kill and one for burglary. Indictments for the same are herewith submitted. The Jury at a former session ap-

pointed a committee with powers to employ an expert to examine the books and accounts of the county officers. He'has performed the service assigned num and his report has been accepted Congressman Newlands arrived from by the Jury and is herewith submitted

The Jury appointed Committees on Public Highways, Management of Publie Affairs by the Several Officers, also on Public Buildings. These several committees reported to the Jury and their reports were accepted and are berewith submitted. The Jury have completed the work before them and respectfully submit this their final report and await the further order and pleasure of the Court.

The Jury's attention has been called to the conduct of a certain Italian saloon conducted by L. Avansino situated on the street and being directly north of the Baptist Church in Reno, Nevada, and, after investigation, believe that a license should be refused material for artists' use at Porteons and the place declared a public nuisance and the proper officers be instructed to thoroughly investigate the matter and if found immoral and disorderly, to close and suppress the same.

Respectfully aubmitted, R. H. KINNEY, Foreman. The expert reported the books of the county in good condition and satisfactory as far as accounts were coning election matters and allowing bills. ported them in good condition except In the airtight stoves, which can be the bridges at Marmol, east of Verdi and County Officers, Jail, etc., reported favorably on the management of each department. The committee is of the opinion, however, that some of the charges in the Justice's Court are excessive and criticises the custom of issuing warrante promiscuously for John Doe and turning them over to the Constable, as being indefinite and unsatisfactory. The Committee on Public Buildings reported the various county buildings in good order and

A TRAGEDY AT WINNEMUCCA.

The Dead Bopies of Mrs. Hadley and W. R. Lewis Found in a Vacant Lot. Winnemucca, November 19 .- Winnemucca was shocked beyond description shortly after 8 o'clock yesterday morning by the finding of the dead bodies of Mrs. D. J. Hadley, wife of ex-Sheriff Hadley of Humboldt county, and Wm. R. Lewis a young man of 22 years of age, in a vacant lot on First street. People in the neighborhood heard three shots in the vicinity last night and it is believed the tragedy took place at that hour and the bodies lay out in the rain all night. The woman was shot twice in the head and the man's brains were blown out, his body lying across that of the woman. It is believed that the case is one of murder and suicide, but the motive cannot be surmised.

While the surroundings and position of the bodies indicate that the woman was killed by the young man and that he then killed himself, there is a profound mystery about the affair.

Wm, R. Lewis was the book-keeper for the firm of Miller & Lux and a young man of good reputation.

Passed Away.

G. Chism, an old and respected citizen of Reno. died last evening at a late hour. Mr. Chism has been ill for several days with typhoid pneumonia and other complications and it was not expected that he could recover Mrs. Chism, who was in the East on a visit: was hastily summoned by telegraph and she arrived home on Friday morning, just in time to be with her husband during his last few hours of life.

Mr. Chiem has lived just west of Reno for many years. He was a substantial citizen, always taking a lively interest in his quiet way in the improvement and progress of the town. He was the soul of honor and was highly respected by all who knew him.

Owing to the lateness of the hour when he passed away, no definite arrangement could be made in regard to the hour of the funeral, but due notice will be given in Monday evening's Gunette.
